Overview:

WCCN 2026 serves as a world-class gathering for experts in catalysis and chemical engineering, offering a dynamic forum for sharing groundbreaking research, emerging technologies, and innovative industrial solutions. The event connects scientists, engineers, industry leaders, and innovators, encouraging collaboration and the exchange of ideas that drive advancements in these critical fields. With a focus on both foundational research and practical applications, WCCN 2026 aims to shape the future of catalytic science and chemical process engineering.

Call for Papers

Participants are invited to share their research and findings by submitting abstracts for consideration in the scientific sessions. A standardized template for submissions can be found on the "Abstract Submission" page of the conference website. All accepted abstracts will be featured in the extended abstract book, which will be accessible online and distributed at the conference.
